DETAILED ACTION

1. This action is responsive to amendment filed 3/16/2006.
2. The disposition of the claims is as follows: claims 1, 4-8, 19, 22-26, 37, 40-44 and 55-60 are pending in the application. Claims 1, 19 and 37 are independent claims. Claims 2-3, 9-18, 20-21, 27-36, 38-39 and 45-54 were previously cancelled.

Claim Rejections - 35 USC § 103

3. In view of amended and cancelled claims and review of cited references and search for prior art, 103 rejections are withdrawn.

Allowable Subject Matter

4. Claims 1, 4-8, 19, 22-26, 37, 40-44, and 55-60 are allowed.
5. The following is an examiner's statement of reasons for allowance:

Applicant's amended independent claims 1, 19 and 37 stand novel over the related prior art. For instance, while the combination of related art of Bollman (US 5,218,350), Udea (US 4,935,879) and GT Interactive, (3D Realms, and Torus Games Ship 'Duke Nukem' For The Game Boy Color) i.e. Game Boy, do make use of an index number setting section which sets image information of an original image as an index number in a lookup table for index color texture-mapping, the index color texture-mapping being texture-mapping which maps a texture onto a virtual object while referring to the lookup table, the index number being set to each texel

Art Unit: 2628

of the texture in a texture space, and the texture linking to image information to be texture-mapped; and

a drawing section which transforms the image information of the original image by performing index color texture-mapping on the virtual object by using the lookup table in which the image information of the original image is set as the index number, the virtual object being a polygon having a size equal to a size of a display screen or a size of a block obtained by dividing a display screen into blocks”.

However, they do not disclose the virtual object constituting polygons having a size equal to a size of a block obtained by dividing a screen into blocks, wherein the index number setting section sets the index number corresponding to the image information of the original image for each of the blocks, which are specified by dividing the display screen, and the drawing section performs the index color texture-mapping on each of the polygons for each of the corresponding divided blocks as claimed in part by independent claims 1, 19 and 37.

Therefore as claimed by the combined elements of amended independent claim 1, 19, and 37, the cited references and prior art of record lack separately and in combination the elements of amended claims.

Claims (4-8, 55 and 58), (22-26, 56 and 59) and (40-44, 57 and 60) depend from allowed independent claims 1, 19 and 37, respectively, and therefore are also allowed.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
